

Visualization (Vis)

Storytelling with
Interactive Data Visualizations

Homework 4 — Editorial Thinking

Project Work

Vis Ideas

- ◆ In the next class, each team (together with the lecturer) will make a tentative decision on the Vis Project they will turn into reality
- ◆ To have a choice, your homework is to come up with **four** project ideas
- ◆ Continue where you left off the brainstorming session during last class
 - Remember: the points of Brainstorming is to come up with as many ideas as possible – do no critique or discuss them, just collect them and build on them
- ◆ Out of your Brainstorming Ideas, develop **four** ideas into project proposals using the Project Proposal Template (in a separate Word .docx file)
- ◆ Condition for all projects: do not use any of the “common and well known” datasets
 - anything that was used in the classes or is part of sklearn
 - Examples: iris, portugese wines, forest cover, titanic, pima indian diabetes, pokemon, ...
